

MSB Installation Guide

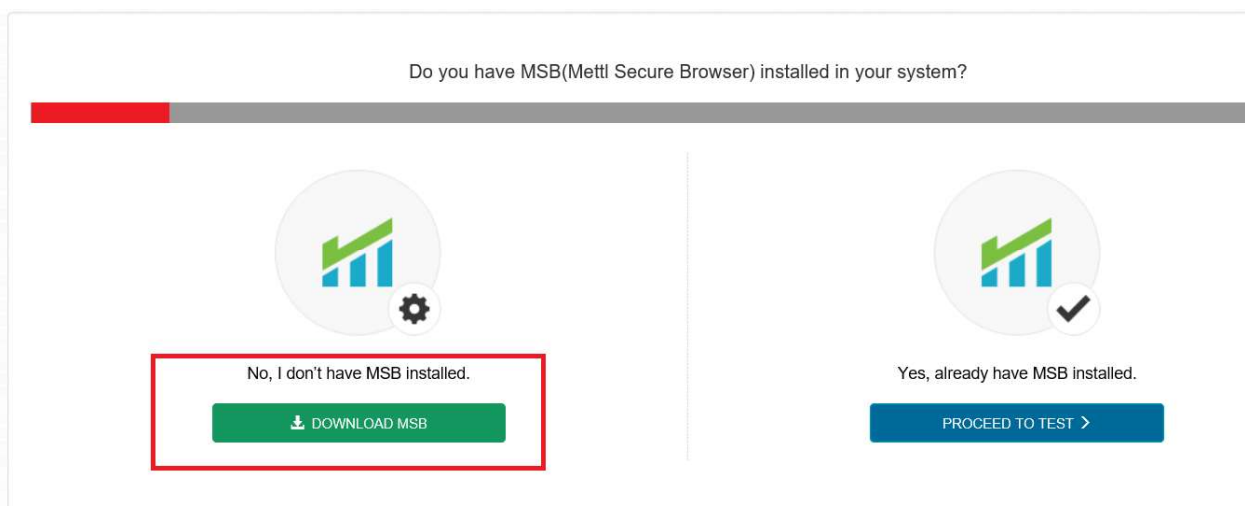

Step 1. Enter the URL - <https://tests.mettl.com/authenticateKey/2g6iras268> in Chrome Browser

Step 2. In Test window - Select Launch Test.

Your test will start in a separate window, click on **launch test** to launch the test

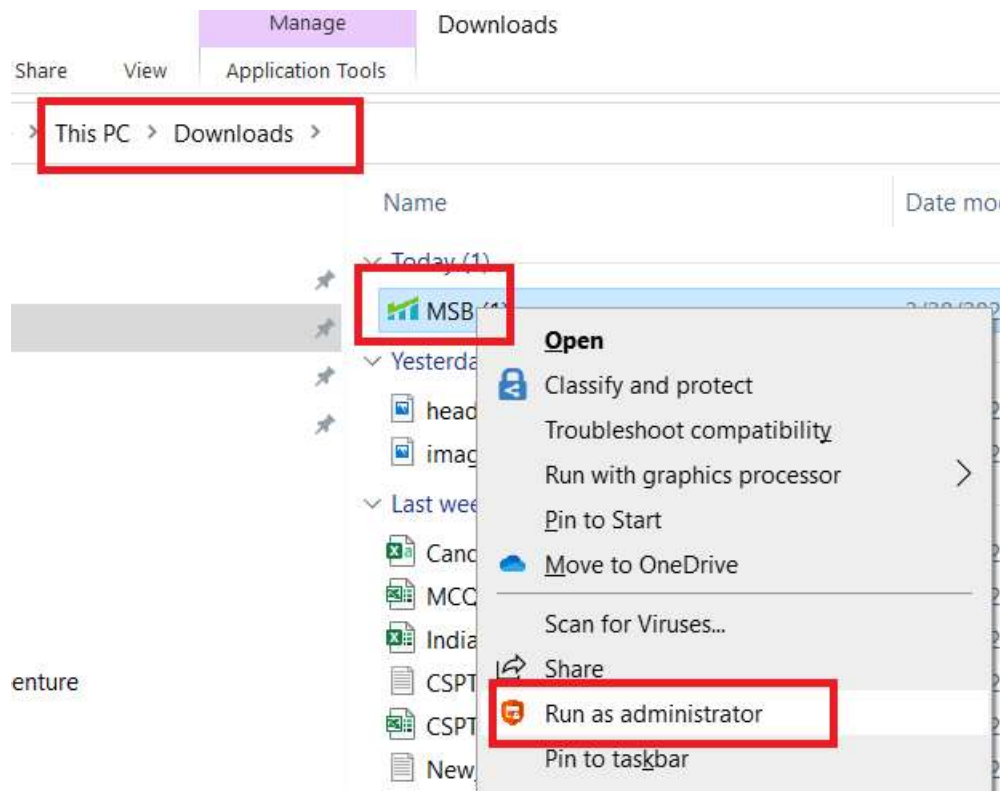

Step 3. Select “DOWNLOAD MSB” button highlighted below (This is only for the First-time login)

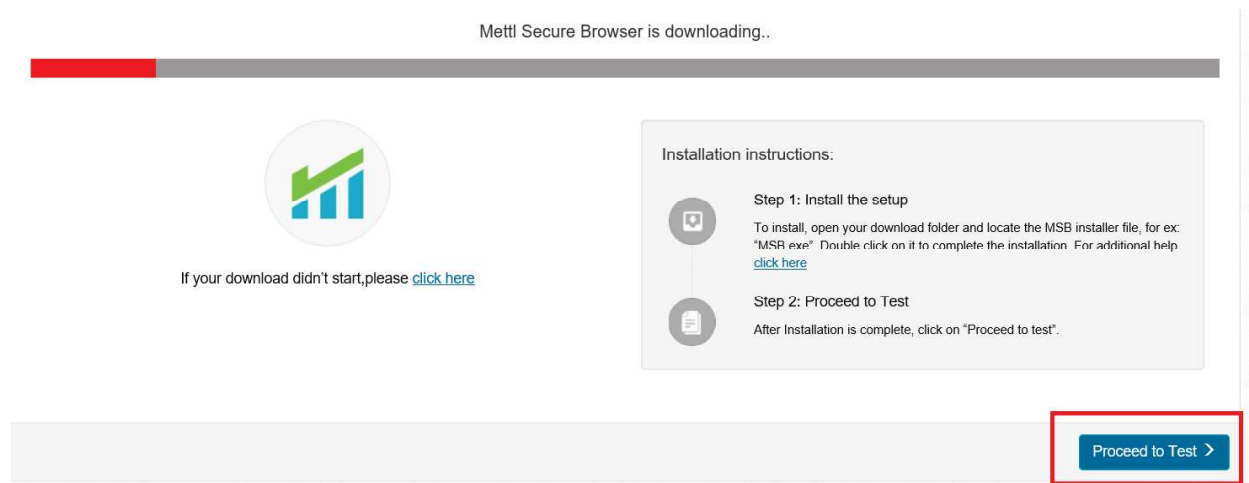

Step 4. Click on “Save” option, when the below pop up prompts.

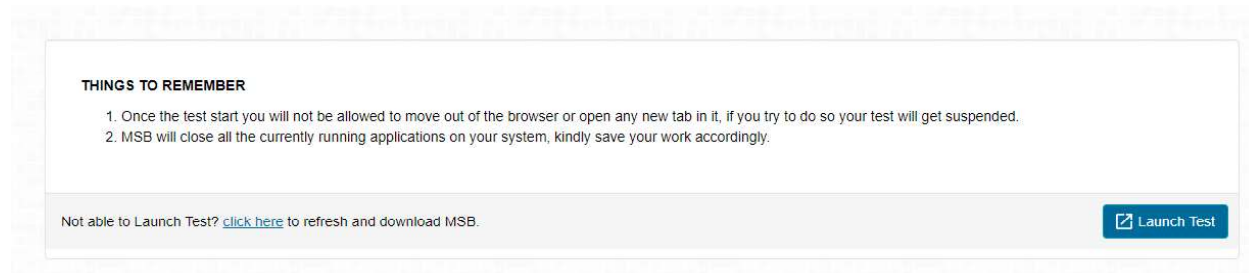

Step 5. Once the file is saved in your machine, go to Downloads and right click on the downloaded file (MSB) and select “Run as Administrator”

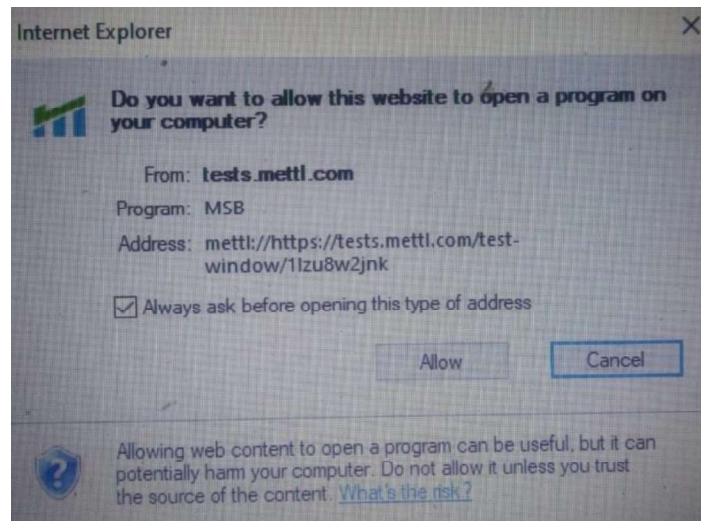

Step 6. Once the Installation is done, click on “Proceed to Test”.

Step 7. Click on “Launch Test” in the next window to start your test.

Step 8. Click on “Allow” Button to Open the SEB (Safe Exam Browser).

If your Installation is successful and you are able to launch the test, then select appropriate option in the sample question and submit the test.
